PROFESSIONAL SUMMARY

Network Engineer with hands-on experience across telecom NOC operations and cybersecurity infrastructure deployment. Currently supporting Huawei-based transport, packet, and voice network infrastructure under an enterprise AMC contract. Previously deployed and validated Fortinet firewall, industrial switching, and OT security infrastructure for Airports Authority of India, serving as sole technical representative during Site Acceptance Testing before government stakeholders.

PROFESSIONAL EXPERIENCE

Network Engineer (NOC / L1 Support)

Aug 2026 – Present

iLayer Solutions LLP

Delhi, India

- Support and maintain Huawei networking equipment — DWDM, MPLS, BRAS, SBC, and MSAN platforms — under an Annual Maintenance Contract (AMC) with Tata Tele Business Services.
- Monitor network health, alarms, and faults across the AMC scope using Huawei NMS platforms (U2000/NCE) as part of NOC/L1 support operations.
- Perform Level-1 troubleshooting and escalation for enterprise telecom infrastructure spanning optical transport, MPLS, and voice/session border control layers.

Cybersecurity Analyst Intern

Feb 2026 – May 2026

ARPR TechSol Pvt. Ltd.

Delhi, India (On-site)

- Deployed and configured 90+ Fortinet firewalls across 3 Airports Authority of India sites, enabling in-line traffic inspection for critical aviation network infrastructure; administered centralized policy management and firmware deployment via FortiManager in HA (Primary/Secondary) configuration for 18 managed devices.
- Deployed 16+ Hirschmann MTS2848 industrial switches for high-availability OT infrastructure, implementing SFP uplink connectivity, NTP sync, VRRP-based gateway redundancy, and Layer 3 routing.
- Configured 16+ Hirschmann Rail Data Diodes for critical aviation OT infrastructure, implementing DATA-IN/DATA-OUT interfaces, static ARP mappings, VLAN segmentation, and hardware-enforced unidirectional OT-to-IT data transfer.
- Provisioned KVM/QEMU virtualization across 5+ bare-metal servers, deploying QCOW2-based Ubuntu security VMs with rsyslog-based centralized log collection for security monitoring.
- Served as sole technical representative during Site Acceptance Testing (SAT) before Airports Authority of India stakeholders, securing formal system acceptance and operational handover.
- Authored a 6-volume, 100+ page technical documentation guide serving as the official deployment reference for the project.

TECHNICAL SKILLS

Telecom & NOC: Huawei DWDM, MPLS, BRAS, SBC, MSAN, U2000/NCE NMS, Alarm & Fault Management, L1 Troubleshooting

Network Security: Fortinet Firewalls, FortiManager HA, NGFW, Firewall Policy Management, IPS, OT/IT Security, Network Segmentation

SIEM & Monitoring: FortiSIEM, Security Monitoring, Log Analysis, Event Correlation, Syslog Management

Networking: L2/L3 Networking, VLANs, Inter-VLAN Routing, Static Routing, Subnetting, SNMP, NTP/SNTP, DNS

Industrial Networking: Hirschmann MTS2848 (HiOS), Rail Data Diode (Unidirectional Gateway), Belden OT Infrastructure

Virtualization & OS: KVM Hypervisor, Ubuntu Server, Windows Server, Linux Administration, Bash Scripting

Tools & Languages: Python Automation & Scripting, Git, GitHub, VS Code

EDUCATION

B.Tech – Computer Science (AI & ML Specialization)

Sep 2022 – Jul 2026

Panipat Institute of Engineering and Technology (PIET), Panipat, Haryana

SGPA: 6.34/ 10

Higher Secondary Education (Class XII)

Apr 2021 – Mar 2022

Govt. Sr. Sec. School, Sindhvi Khera, Jind

Percentage: 86%

CERTIFICATIONS & ACHIEVEMENTS

- Fortinet Certified Fundamentals in Cybersecurity — Fortinet (NSE 1 & NSE 2)
- Cybersecurity Virtual Internship — Deloitte (Forage)
