PROFESSIONAL SUMMARY

B.Tech Computer Science (AI & ML) graduate with hands-on experience in telecom network operations, network security, and OT/cybersecurity infrastructure deployment. Currently working as a **Network Engineer** in a **NOC/L1** role, supporting **Huawei DWDM, MPLS, BRAS, SBC, and MSAN infrastructure** under a **Huawei AMC contract with Tata Tele Business Services (TTL)**, with a strong operational focus on **NMS (U2000/NCE)** based **alarm monitoring and fault management**. Also experienced with **Fortinet firewalls, FortiManager HA, Hirschmann industrial switches, Rail Data Diodes**, and **KVM** virtualization across critical aviation environments. Contributed to multi-site cybersecurity implementations for **Airports Authority of India** infrastructure. Served as the sole technical representative during **Site Acceptance Testing (SAT)**, validating high-availability and security controls before government stakeholders.

PROFESSIONAL EXPERIENCE

Network Engineer

Aug 2026 – Present

iLayer Solutions LLP • Delhi, India (Huawei AMC Contract with Tata Tele Business Services)

- Operate as a **NOC/L1 Network Engineer** supporting Huawei **DWDM, MPLS, BRAS**, and **MSAN** infrastructure under an Annual Maintenance Contract (AMC) with **Tata Tele Business Services (TTL)**, ensuring continuous availability of core telecom network elements.
- Monitor real-time network alarms, faults, and topology health using Huawei **NMS platforms (U2000/NCE)**, performing first-level triage, fault isolation, and escalation in line with defined SLAs.
- Support configuration, fault management, and reporting workflows across **DWDM** transport, **MPLS** core, and access-layer (**BRAS/MSAN**) infrastructure, contributing to reduced mean-time-to-detect on network incidents.
- Studied the full AMC scope document and built a structured, phase-wise NMS learning roadmap covering alarm management, topology monitoring, configuration, and reporting.

Cybersecurity Analyst Intern

Feb 2026 – May 2026

ARPR TechSol Pvt. Ltd. • Delhi, India (On-site)

- Deployed and configured 90+ **Fortinet firewalls** across 3 **Airports Authority of India** sites for in-line traffic inspection; administered centralized policy management and firmware deployment via **FortiManager HA** (Primary/Secondary) for 18 devices.
- Deployed 16+ **Hirschmann MTS2848** industrial switches for HA OT infrastructure, implementing SFP uplinks, **NTP synchronization, VRRP-based gateway redundancy**, and **Layer 3 routing**.
- Configured 16+ **Hirschmann Rail Data Diodes** for critical aviation OT infrastructure, implementing DATA-IN/DATA-OUT interfaces, static ARP mappings, **VLAN-based segmentation**, and hardware-enforced unidirectional OT-to-IT transfer.
- Provisioned **KVM/QEMU** virtualization across 5+ bare-metal servers with QCOW2 Ubuntu security VMs and rsyslog-based centralized log collection for security monitoring.
- Served as sole technical representative during **Site Acceptance Testing (SAT)** before **Airports Authority of India** stakeholders, demonstrating **Fortinet** HA failover and OT network isolation controls; authored a 6-volume, 100+ page deployment documentation guide.

TECHNICAL SKILLS

Telecom & NMS: Huawei **DWDM, MPLS, BRAS, SBC, MSAN, NMS (U2000/NCE)**, **Alarm Monitoring & Fault Management**, Topology Monitoring, NOC Operations (L1)

Network Security: **Fortinet firewalls, FortiManager HA**, UTM/NGFW, Firewall Policy Management, IPS, **OT/IT Security**, Network Segmentation

SIEM & Monitoring: **FortiSIEM**, Security Monitoring, Log Analysis, Event Correlation, Syslog Management

Networking: Layer 2/Layer 3 Networking, VLANs, Inter-VLAN Routing, Static Routing, Subnetting, SNMP, NTP/SNTP, DNS

Industrial Networking: **Hirschmann MTS2848** (HiOS), **Rail Data Diode** (Unidirectional Security Gateway), Belden OT Infrastructure

Virtualization & OS: **KVM** Hypervisor, Ubuntu Server, Windows Server, **Linux Administration, Bash Scripting**, File Permissions, Process Monitoring

Tools & Languages: **Python Automation & Scripting, Git, GitHub**, VS Code

EDUCATION

B.Tech – Computer Science (AI & ML Specialization)

Sep 2022 – Jul 2026

Panipat Institute of Engineering and Technology (PIET) • Panipat, Haryana | SGPA: 6.03 / 10

Higher Secondary Education (Class XII)

Apr 2021 – Mar 2022

Govt. Sr. Sec. School • Sindhvi Khera, Jind | Percentage: 86%

CERTIFICATIONS & ACHIEVEMENTS | View Certificates

- Fortinet** Certified Fundamentals in Cybersecurity – **Fortinet** (NSE 1 & NSE 2)
- Cybersecurity Virtual Internship – Deloitte (Forage)
- AR/VR Internship Certificate – ABV Studios Pvt. Ltd.
